---

PROJECTS

Figma Design Conversion | LINK

- Built a user interface from scratch.
- Independently translated a Figma design into a functional website using HTML and CSS.

E-Todo App | LINK

- Implemented secure login: Users can only add, edit, or delete tasks after logging in, keeping their data private.
- Enabled multi-user functionality: I designed the app to seamlessly handle multiple users with a logout option. This allows each user to manage their own personalized to-do list.

E-Commerce Website | LINK

- Developed a user-friendly e-commerce website with advanced filtering and state management.
- Enhanced User Experience: Implemented powerful filtering options (mobile/laptop, company, price range) and colour selection for a seamless shopping experience.
- Streamlined Checkout Process: Integrated a user-friendly checkout flow with order review, ensuring transparency before purchase confirmation.

CERTIFICATES

Programming in Python   **Jun 2022**

- Mastered fundamental Python syntax, proficiently utilising control flow, loops, functions and data structures.
- Learned Html, css, javascript and Django.
